

A SONG FOR ARES

You came into our lives one day,
So small and unsure, but here to stay.
You learned the world, we learned you too,
Step by step, we came closer to you.

It wasn't always easy at the start,
We had to learn each other's hearts.
You learned our world, we learned your ways,
And grew together day by day.

Ares, Ares — our best friend,
Ares, Ares — joy without end.
Four little paws, a heart so true,
And now we know — we're here with you.

Ares, Ares — stay here with us,
Just as you are — that's more than enough.
'Cause all our happiest moments start
With four little paws and a loving heart.

We come back home, though just for a while,
And you come running with your biggest smile.
As if we'd been gone the whole day long,
You greet us like we've been gone too long.

Out on a walk, the world calls your name,
“Come on, there's something new to see again!”
Every person could be your friend,
Every little scent — a new adventure begins.

Ares, Ares — our best friend,
Ares, Ares — joy without end.
Four little paws, a heart so true,
And now we know — we're here with you.

Ares, Ares — stay here with us,
Just as you are — that's more than enough.
'Cause all our happiest moments start
With four little paws and a loving heart.

And when there's something you really want,
One little paw — and there it is.
Then comes the other, once again,
Sometimes the first one — once again. 😊

Then comes our bed, your favorite place,
You know exactly where you want to stay.
A little sleep, a little rest,
And we just watch you — being your best.

And when you come a little closer,
You give a kiss the way you do.
One little lick, and then another,
And somehow we already know.

No need for words, no need for more,
You being here is all we need.
You're right beside us — that's enough
To make this life more beautiful.

Ares, Ares — our best friend,
Ares, Ares — joy without end.
Four little paws, a heart so true,
And now we know — we're here with you.

Ares, Ares — our greatest love,
Four little paws, our whole world.
If happiness could have a name,
For us it's Ares. Our Ares.

Stay always close, our Ares dear,
Just as you are — just stay this way.

Since you came here to be with us,
Our home has more light every day.

Thank you for being here with us,
For the day our paths first crossed.
And may this beautiful life go on,
Our shared, everyday happiness.
